Apprenticeship & Work Experience Opportunities

A GREAT
ALTERNATIVE
TO
UNIVERSITY

Waterside
Training

APPRENTICESHIP

MECHANICAL ENGINEERING

Waterside Training in partnership with Essity based at Skelmersdale has a fantastic opportunity for three apprentices to join their maintenance department to support the manufacturing operations as Mechanical Engineering Maintenance Apprentices. Are you looking for an apprenticeship close to home in Skelmersdale? Do you like problem solving? Do you like being part of a team?

If so, Essity's award-winning engineering apprenticeship could be for you. This is a fantastic opportunity to earn while you learn. At Essity we manufacture and sell products that are used every day. We own and manufacture many leading brands that you use every single day. Cushelle toilet tissue, Plenty kitchen roll and TORQ are three of our leading tissue brands, all manufactured in the UK for use in the home and industry. It takes a lot of people to make one toilet roll and our engineers and technicians play a key role in maintaining and improving our manufacturing equipment to do just that. You could be a part of this integral team. On site, our converting lines turn semi-finished goods manufactured at our paper mills into the finished product.

Apply now at Essity https://essity.wd3.myworkdayjobs.com/en-US/Job_opportunities/Job/Skelmersdale/Mechanical-Engineering-Apprentice_Essity212904

KEY ASPECTS

- Level 3 Maintenance Operations Engineering Technician Standard | 4 Year | Site Based Training
- Level 3 City & Guilds Diploma in Engineering with progression to HNC
- Cover broad base training in Electrical & Mechanical Skills at Waterside Training STEM Centre
- You will be involved in mechanical engineering carrying out maintenance activities such as:
 - machine and equipment maintenance, including preventative and planned maintenance tasks of mechanical activities
 - fault finding and diagnostics
 - using preventative maintenance systems
 - restoring components undertaking repair & replacement and servicing equipment
- be involved in mechanical activities assisting the engineering teams in various job roles covering maintenance on mechanical equipment, such as motors, gearboxes, pumps, bearings, chain drives to conveyor belts and systems dealing with both pneumatics and hydraulic drive systems.
- On-the-job training learning how the machinery works, find out about routine maintenance, support with breakdowns, and systems we use to track machine performance and manage maintenance planning.

The ideal candidate should be self-motivated, reliable, proactive, enthusiastic and very well organised who can work excellently within a team who is driven to succeed and grow in a fast pace environment to become the next highly skilled engineer and technician of the future.

Entry Requirements: 5 GCSE's at A-C or equivalent grade 5-9 in English, Mathematics and Science is essential. A practical based subject in Design Technology, Engineering and or Resistant Materials would be desirable.

Closing Date: 13 February 2022

Essity Apprenticeship

Waterside training in partnership with Essity based at Skelmersdale has a fantastic opportunity for **three apprentices** to join their maintenance department to support the manufacturing operations as Mechanical Engineering Maintenance Apprentice's.

To see the poster in better detail, please [access the PDF](#) on the school website.

Pepsico Apprenticeship

Waterside training in partnerships with Walkers Snack Foods based at Skelmersdale has a fantastic opportunity for **two apprentices** to join their maintenance department to support the manufacturing operations as a **Multi-Skilled (Electrical/Mechanical Engineering) Maintenance Apprentices.**

PepsiCo is one of the world's leading food and beverage companies.

Please see the **PDF poster** for more details (this can be accessed via the school website).

The poster features the Pepsico logo at the top left, a circular badge stating 'A GREAT ALTERNATIVE TO UNIVERSITY' at the top right, and the 'Waterside Training' logo with gear icons. The main title 'APPRENTICESHIP' is in large white letters on a dark blue background. Below it, 'MULTI-SKILLED ENGINEERING' is written in yellow. The text describes the opportunity at Walkers Snack Foods, lists key aspects of the 4-year apprenticeship, and provides contact information for Waterside Training. It also includes a closing date of 29 April 2022. The right side of the poster is decorated with images of snack packaging and factory workers.

APPRENTICESHIP

MULTI-SKILLED ENGINEERING

Waterside Training in partnership with Walkers Snack Foods based at Skelmersdale has a fantastic opportunity for two apprentices to join their maintenance department to support the manufacturing operations as Multi Skilled (Electrical/Mechanical Engineering) Maintenance Apprentices.

PepsiCo is one of the world's leading food and beverage companies serving more than two hundred countries and territories around the world. In the UK our snacks portfolio includes some of the nation's best loved snack brands such as Walkers, the nation's favourite crisp. But that's not all, we also create iconic snacks such as Dorito's, Wotsits, Monster Munch and premium brand Pipers Crisps.

The four year engineering apprenticeship will initially cover broad based training in Electrical and Mechanical skills at Waterside Training in St Helens with years 2 to 4 working on plant at Skelmersdale alongside professional engineers whilst continuing to attend college day release up to HNC. The apprenticeship will provide training in electrical and mechanical skills for the maintenance and fault finding of manufacturing equipment within the food industry.

KEY ASPECTS

- A 4 Year Apprenticeship with Site Based Training and Development
- Level 3 Science Industries Maintenance Technician Standard
- Level 3 City & Guilds Diploma in Engineering with progression to HNC
- Cover broad base training in Electrical & Mechanical Skills at Waterside Training STEM Centre
- You will be involved in electrical & mechanical engineering carrying out maintenance activities such as;
 - machine and equipment maintenance, including preventative and planned maintenance tasks of electrical and mechanical activities
 - fault finding and diagnostics
 - using preventative maintenance systems
 - restoring components undertaking repair & replacement and servicing equipment
- be involved in both Electrical and Mechanical activities assisting the engineering teams in various job roles covering maintenance on electrical equipment, such as motors, control units, PLC's, sensors, instrumentation, distribution systems and switchgear and assisting with preventative maintenance on mechanical equipment, such as motors, gearboxes, pumps, bearings, chain drives to conveyor belts and systems dealing with both pneumatics and hydraulic drive systems.

The ideal candidate should be self-motivated, reliable, proactive, enthusiastic and very well organised who can work excellently within a team who is driven to succeed and grow in a fast pace environment to become the next highly skilled engineer and technician of the future.

Entry Requirements; 5 GCSE's at A-C or equivalent grade 5-9 in English, Mathematics and Science is essential. A practical based subject in Design Technology, Engineering and or Resistant Materials would be desirable.

Sellafield Limited Work Experience

Sellafield Limited are offering a 10 week-long (Monday-Friday) programme for Students in year 11.

Sellafield Ltd are responsible for the safe and secure operation and clean-up of the Sellafield Nuclear Site.

This is based in the Sellafield Offices in **Birchwood, Warrington.**

If you are interested, please email the following for an application form or speak to Miss Picton/Ms Busek.

spoc.work.experience@sellafieldsites.com

Running weekly starting Monday 21st February – Friday 25th February

Young Nuclear Engineer

Work Experience **Age 15+**

(Birchwood, Warrington)

Discover how men and women take on the world's most complex engineering challenges to transform the Sellafield site

- week-long placement in the Warrington office, solving real engineering problems
- awareness in Process, Mechanical, Control, Electrical & Instrumentation and Civil & Structural Engineering Design
- experience exciting and rewarding challenges with a clear vision of the future opportunities available in engineering
- gain valuable employability skills to future employers and education/training providers

Working as a project team you will experience first-hand how you use STEM subjects to work on a ground-breaking project alongside nuclear industry's experts...

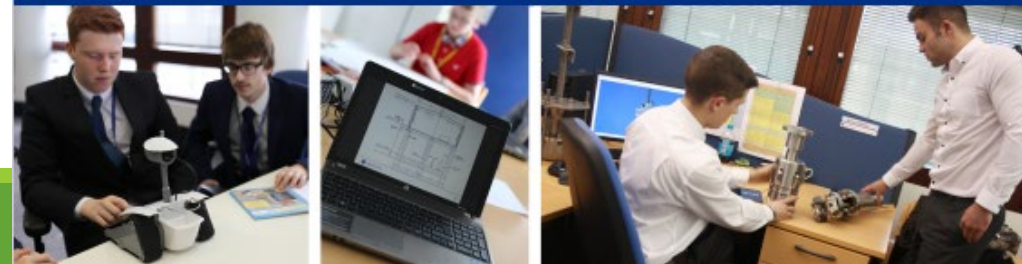

Email: spoc.work.experience@sellafieldsites.com to request application form

Running weekly starting week commencing

Monday 21st February 2022 to Friday 25th February 2022

Please Note: Limited Spaces Available

Age 15+

National Nuclear Laboratory Warrington - Apprenticeship Scheme

National Nuclear Laboratory have opportunities at different entry levels.

Opportunities and application process can be viewed at <http://www.nnl.co.uk/>.

Apprenticeships available in Business Administration at their Warrington Site.

They are offering a one hour Insight workshop explaining about which apprenticeships they recruit each year, the skills and how you can apply.
